DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(c), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(c) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on May 14th, 2010, has been entered.

Allowable Subject Matter

Claims 1-11 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record neither teaches nor reasonably suggests the combination of:

a) a single input fuzzifier means for inputting and optimizing singular imaging data and the treatment intentions, including dose/volume constraints for critical organs, normal tissues, and targets as well as compromising strategy between each,

b) inference means operationally connected to the fuzzifier means for analyzing the imaging data and the treatment intentions and determining radiation treatment target from non-treatment target, and

c) defuzzifier means for modulating radiation treatment pursuant to the analysis from the inference means, as required by the combination as claimed in each of **claims 1 and 10**.

Lemelson teaches the practice of using fuzzy logic for distinguishing treatment targets from non-treatment targets; however, Lemelson does not additionally teach the practice of

optimizing the treatment intentions, in addition to the image analysis, for modulating radiation treatment.

Claims 2-9 and 11 are allowed by virtue of their dependencies.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
